

# Remember these times forever.

Family, couple, children and pet portraits have become a tradition in the relaxed, natural beauty of this great country.

People and animals have a way of changing. That is precisely why you should take this opportunity now while you have this time in your life.

The parks, scenic areas and your property are a perfect backdrop for a portrait that will touch your heart, and warm your home.

# How long has it been since your loved ones have been photographed?

Take this opportunity to schedule and plan your portrait session now, in case this year goes by as fast as the last.

# Where will you display your most special portrait?

Your portrait is the most important decorative focal point in your home. It tells the world how much you value your loved ones and reminds us daily of the important things in life.

# Imagine your portrait someplace special

A fine portrait is a gift you give yourself, your family and generations to come.

*Please reserve your session immediately to assure the appointment of your choice. Prime sunset session appointments are in high demand and our schedule is limited.*

# The very best days of your life!

With over 20 years experience of traveling and photographing around the country. Certified Professional Photographer David Koster provides you with the skills, patience, knowledge, and training to create a custom photographic piece of art you will truly treasure.

We create quality portraiture all year long on location, in color or black and white, from finished prints and cards, to fine-art canvas wall portraits.

There are many options and locations for your portrait including the park, river, lake, mountain, golf course, home, rental property, business, backyard, porch, farm or someplace special to you. Action and extreme sport portraits are exciting too!

We use advanced satellite and radar monitoring of the weather to insure the best window of opportunity for your portrait session.

You may be able to preview and select your portraits on location with our state of the art equipment.

Your satisfaction with our work is fully guaranteed for memories that you will treasure for a lifetime.

*"We love all of the portraits, most of all, the large canvas portrait that hangs in our living room. The kids love it too -- something I hadn't expected -- and it has spurred many fond talks of all the great times we've had at the beach. The portraits have probably been the best investment we've ever made, no exaggeration."* Cecilia K.
